🔍 Realizar búsquedas básicas por tipo de dispositivo

WebCam:

The screenshot shows a Shodan search result for 'IP Webcam'. On the left, there are three lists: 'TOP CITIES' (Berlin, Goslar, Ahaus, Beckingen, Gevelsberg), 'TOP PORTS' (8080, 3333, 1967, 4747, 8086), and 'TOP ORGANIZATIONS' (Deutsche Telekom AG, 1&1 Versatel Deutschland GmbH, Telefonica Germany GmbH & Co. OHG, Telekom Deutschland GmbH). The main content area displays the search results for 'IP Webcam' (79.228.100.10), including its location (Germany, Wollertingen) and a live video feed of a smartphone screen showing a temperature of 38.0°C. Technical details like HTTP status (200 OK) and headers are also visible.

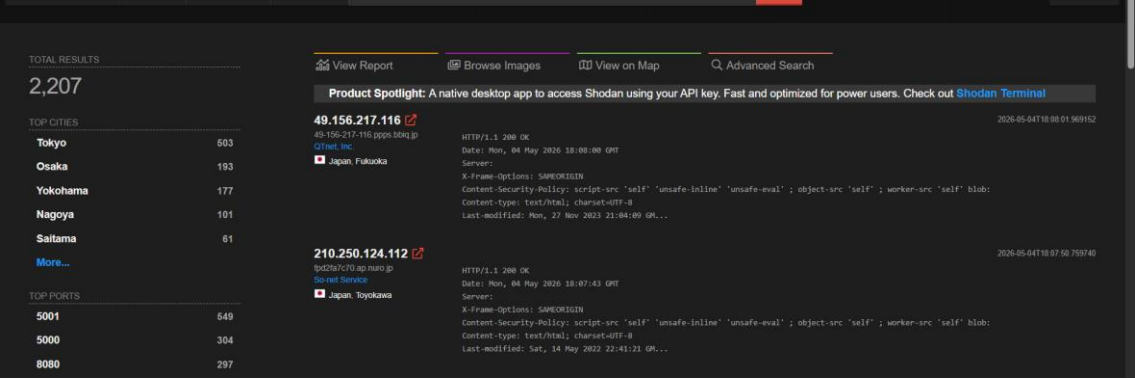

Router:

The screenshot shows Shodan search results for 'Router'. The left sidebar shows 'TOTAL RESULTS: 336,520' and lists top cities and ports. The main content area displays two search results. The first is for 'DooTask' (104.237.154.190), showing it's a native desktop app. The second is for 'Network Camera VB-H610' (47.224.61.74), showing it's a network camera. Both results include technical details like HTTP status, headers, and location information.

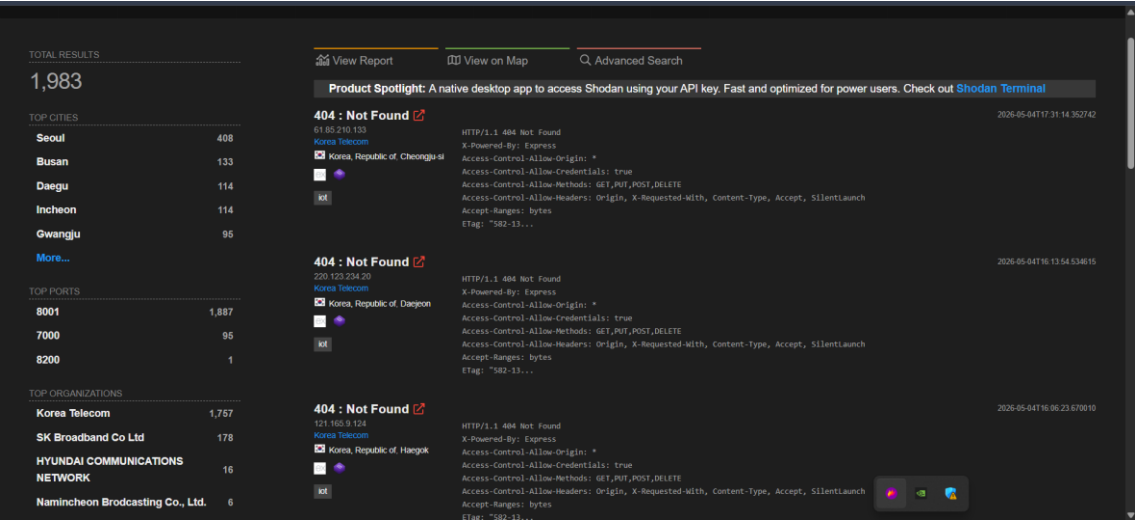

Printer:

The screenshot shows Shodan search results for 'Printer'. The left sidebar shows 'TOTAL RESULTS: 1,352' and lists top cities and ports. The main content area displays two search results. The first is for '157.245.31.170' (DigitalOcean, LLC), showing SMB status and capabilities. The second is for 'Home - CUPS 2.3.3op2' (BT Infrastructure Layer), showing HTTP status and server information. Both results include technical details like HTTP status, headers, and location information.
